

## Wordpress Maintenance Plans 2025

### Page 1

Let us take care of the day to day maintenance of your wordpress site, our team will check and update your site on a monthly basis, helping to keep your site secure, up to date and functioning as it should.

You can also be sure your site is using the latest version of any plug-ins improving the usability, stability and security of your site.

We will also check and validate the forms on your site and make sure that Google Maps is showing your business in the correct location, it's amazing how many times we come across forms or maps not working as they should, usually as a result of external issues, and if you aren't aware of the issue, you will be losing potential business.

Let us do all the tedious tasks you may not get around to quite as often as you should, ensuring your visitors have a trouble free, pleasurable experience.

### Our Standard Plan

Included where applicable

- \* Check and update plug-ins
- \* Check and fix any broken links
- \* Check and update the Wordpress core
- \* Check and update captchas
- \* Check and validate the main contact form
- \* Check and update google maps
- \* Check and update any social media links
- \* Manually update the footer copyrights each year
- \* Monthly back ups are included on most sites

Plus a special discount of 25% on any correctional work caused as a result of any updates.

All this for only £55 per month (plus vat).

## Wordpress Maintenance Plans 2025

### Page 2

### Our Extra Plan

In addition to our Standard plan:

4 news/blog posts over the 12 month period, each quarter we will even send you a reminder that we need your content.

Our Extra Plan adds an additional £20 per month (plus vat).

### Our Total Plan

In addition to our Standard plan:

12 news/blog posts over the 12 month period, each month we will send you a reminder that we need your content.

Our Total Plan adds an additional £50 per month (plus vat).

.....

### What you need to know:

The plans are paid as a monthly direct debit on a 12 month contract or we offer a 5% discount when paid yearly in advance and all prices are plus vat.

We always recommend updating plug-ins on a monthly basis and the Wordpress Core when required. Why? well, plug-ins and the core are usually updated by the developers for one of two reasons.

1. They are updated to improve how they work, there may be new additional features or may have a tweak to work better with a recent web browser or Wordpress update.
2. A security flaw has been discovered and an updated version has been released to patch the issue.

Both of the above are big reasons to update, however occasionally a new plug-in update can cause a conflict with something on your site, be it another plug-in or the theme itself. Although a fairly rare occurrence, if this was to happen as a result of any updates, we would need to charge for any correctional work, the good news is, if you have one of our plans, we reduce the price for diagnosing and correcting the issue by 25%.
